(Aaron Nordquist)

Something's been wrong inside of me
Ever since our love dissolved
I don't want you to be my enemy
Oh what I'd give to bury all this pain
And get on with my life again
Take some time to think of what I have to say
And with my heart, please don't play
Look at me I'm falling apart
Ever since you took away my heart

Chorus

Can't you see I need you to hold me
Can't you see I need you to guide me
Can't you see I need you to save me
Can't you see I need you to love me
My head's spinning round when I'm without you
Listen to what I have to say, my aim is true
Can't sleep at night without you beside me
Please have mercy
Can't you see I need you to hold me
Can't you see I need you to guide me
Can't you see I need you to save me
Can't you see I need you to love me
I sit here with a wounded heart and soul
That's finding too hard to let go
Can't you see I need you to need me
Hold me, guide me, save me, love me
Can't you see I need you to hold me
Can't you see I need you to guide me
Can't you see I need you to save me
Can't you see I need you to love me
