When I first saw you I didn't realize  
And now I think I love you baby was I surprised  
People say my love just cannot be true  
They don't believe that everyday my love grew and grew  
But now I have the courage to tell you  
just how much I love you

Chorus

No more fears  
It's taken me all these years  
You're the first to have this love of mine  
Forever with me till the end of time

You introduced me to my mind  
And left me wanting you and your kind  
Now you have me under your power  
My love grows stronger now with every hour  
No more fears  
It's taken me all these years  
You're the first to have this love of mine  
Forever with me till the end of time  
Follow me now and you will not regret  
Leaving the life you led before we met  
My life was empty forever on a down  
Until you came and showed me around  
Look into my eyes I'll tell you who I am  
My name is lover please take my hand  
My life is free now my life is clear  
I love you baby and I wish you were here  
I've got no more fears  
We'll be together forever and years  
No more fears  
It's taken me all these years  
You're the first to have this love of mine  
Forever with me till the end of time
