[Anneke van Giersbergen]:

(No need...)

No need to feel the pain

No need to feel betrayed

No need to feel inane

No need to feel afraid

[Jorn Lande]:

Wake me up before I die, hold me close

As I gaze upon the sky, comatose

No reason to survive, I suppose

Wake us up before we die

[Anneke & Jorn]:

No need to feel desire

(but I need you with me)

No need to feel so small

(but I need to feel secure)

No need to feel the fire

(but I need to feel free)

No need to feel at all

(but I need to know for sure)

[Jorn]:

Wake me up before I die, hold me close

As I gaze upon the sky, comatose

No reason to survive, I suppose

Wake us up before we die (x2)
