OKKIE HUYSSENS:

More than a million years ago,
It came to earth out of the sky...
From whence it came is yet unknown.
And still, we don't know why.

EDWARD REEKERS:

Way beyond infinity,
Where time is lost, and life has ceased to be...

OKKIE HUYSSENS: Where life has ceased to be..

EDWARD REEKERS:

There's a cosmic entity,
A bringer of life for all eternity...
Is this how it all began?
The dawn of man (Ohhh)

OKKIE HUYSSENS:

More than a million miles from earth,
Somewhere in outer space...
Behold a planetary birth!
Making way for a brand new race.

ROBERT SOETERBOEK: Way beyond infinity,

EDWARD REEKERS: Where time is lost, and life has
ceased to be...

OKKIE HUYSSENS: Where life has ceased to be...

ROBERT SOETERBOEK: There's a cosmic entity,

OKKIE HUYSSENS: A bringer of life for all eternity...

EDWARD REEKERS:

Is this how it all began?
The dawn of man (Ohhh)

Is this how it all began?

(Baby cooing and playing)
