I'm feeling insurcure
If love is never sure with you
But you're the one who said goodbye
Then I turned around,
You're on your knees and crying

I hope you're feeling happy now
After all is said and done
I hope you're feeling happy now
Now that you're the lonely one

I never asked you why
Just stared into space
And watched it all go by
But I'm losing you to the crowd
How can we talk
If your music drowns me out

I hope you're feeling happy now
After all is said and done
I hope you think you're happy now
Now that you're the lonely one

I hope you're feeling happy now

But you're the one who said goodbye
Then I turned around
You're on your knees and crying

I hope you think you're happy now
After all is said and done
I hope you think you're happy now
But girl you're the lonely one.

I hope you think you're happy now

I hope you're feeling happy now

I hope you're feeling happy now
