Yo, Listen,
Yo, Listen, (Listen)

Let me get the facts right while I look to the streets
No more natural schemes, tell me what do you see?
The psychology is, keep all the people uninformed
Like the case in the court, mandem playing with
thoughts
Slicing brothers with swords, damage is the main chaw
Like the drugs on the road, hearts be turning so cold
Brothers selling their souls, for the money they destroy
Everything and everyone, like it's for the gold or oil
Or maybe six feet of soil mandem digging before
growth
Trying to cover the ends, with poisonous snow
Blood is what I can smell, under my nose
Situation serious, profit was the main cause
See you don't know, it goes deeper than thoughts
Tactical release to the kids of the ghetto
Trying to make them forget, who really made the
ghetto
A picture paints a thousand words and my words have
settled

We don't care what they say we shall move as a team
As they look as they stare what they do is not fair
We will stay as we pray we will not fall astray
Coz the lord gives us way and the power he retains
Coz the lord gives us way...and the power he retains
We will not fall astray...coz the power he retains

Taking a second look at the streets, mandem see
disease

Adulterated roads, half of it is unseen
Misled moors, mans forgot about deen
Crackerjack facts come to your eardrum with a skill
Brothers don't pay the upper man then a brother gets
killed
Blood gets spilled, wrapped up in white cloth and
sealed
Four to six feet deep under the ground concealed

Used to be called a G but no more is he a G
But now the biggest G-O-D, wanna weigh up the deeds
Man moved heaven and earth to get to big Gs
After all that struggle, he left them with ease
Gave himself and all the people around him a load of
grief
Left his mans with grudge and tears, contemplating
beef
Sense of clash, to introduce a military
Run up on the other side and take out the chief
But then eye for an eye, that's deeper misery

We don't care what they say we shall move as a team
As they look as they stare what they do is not fair
We will stay as we pray we will not fall astray
Coz the lord gives us way and the power he retains
Coz the lord gives us way...and the power he retains
We will not fall astray...coz the power he retains

The lord gives us way
We will not-not-not not fall astray
Coz the power-power-power the power he retains
The lord power power
The P-P-P the power he retains
