Love is the relation to all the emotion  
Could it be that there was too much devotion?  
Difficult to understand affection in motion  
As attraction was to be the key mode of notion  
All I did is move in caution it was not distortion  
My heart beat repeat as I see your reflection  
You knew I knew I aint the type to be  
Seen breaking your heart with a sense of revulsion  
Be patient cuz I donâ€™t really wanna see tension  
Donâ€™t want the wrong impression but seek  
admiration  
For both of us cuz when I look in your eyes  
Truth is what you define within the clear sky  
As you open your heart we will never depart  
Itâ€™s a fresh start destiny is to be  
What we make it to be so lets be

Lets be the best we could be  
With every step that we take in this life  
Cuz everyday brings blessings  
Sense all the goodness  
Feel all the beauties in  
Everyday life

Tell me were did we go wrong?  
Tell me how did we go wrong?  
We will ever reach each other?  
Or have we moved to far-off?  
Tell me will we love each other?  
Although there was so much drama  
Will we respect one another?  
Thereâ€™s time to change the weather

Now tell me, was it real or fake?  
Was it by chance or was it fate?  
Three times proposition and it wasnâ€™t late  
But you didnâ€™t really feel it cuz you had no faith  
Playing intellectual, ended in wrong lanes  
Trying to put in shackles with your mind games  
I was planning to build but you were planning to fail  
Therefore left turned love to hate, disintegrate  
It wasnâ€™t justified for you to hold sway

And I couldn't be bothered with all the games you  
play  
Was it true love or was it truth or dare?  
Wasting your time, trying to weigh out if I'm brave  
Though for anyone or anything time does not wait  
Time for my say, rhymes for our sake  
Though after the bridge I've got a few questions  
But before the chorus I've got a small suggestion

Lets be the best we could be  
With every step that we take in this life  
Cuz everyday brings blessings  
Sense all the goodness  
Feel all the beauties in  
Everyday life

Tell me were did we go wrong?  
Tell me how did we go wrong?  
We will ever reach each other?  
Or have we moved to far-off?  
Tell me will we love each other?  
Although there was so much drama  
Will we respect one another?  
There's time to change the weather

Tell me were did we go wrong?  
Tell me how did we go wrong?  
We will ever reach each other?  
Or have we moved to far-off?  
Tell me will we love each other?  
Although there was so much drama  
Will we respect one another?  
There's time to change the weather
