

## Automatic Eye "Semi-automatic Heart"

Visit "[Semi-automatic Heart](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Good evening everybody! We are all the same  
We have lived, we've yearned and still we haven't  
learned  
And my life oohh, I drank everything I had  
From fairytale to living hell, my life hates my mistakes

I've been wondering where you've been lately?  
Trying desperately to move on  
Emotions rewinded, until D-day I was blinded  
You touched my semi-automatic heart

I hate myself but I want to try  
To find a way to keep myself mentally satisfied  
I would die just to see you again  
I built a bridge, I tried so hard  
But I burned it down, I guess I'm just too weak, too  
weak

I've been wondering where you've been lately?  
Trying desperately to move on  
Emotions rewinded, until D-day I was blinded  
You touched my semi-automatic heart

I'm blowing my cover  
Breaking down again  
Too complicated  
I'm crawling back inside  
One more time be my partner in crime  
If we have will, we will have time

I've been wondering where you've been lately?  
Trying desperately to move on  
Emotions rewinded, until D-day I was blinded  
You touched my semi-automatic heart

(Na-na-na-na)  
Trying desperately to move on  
(Na-na-na-na)  
You touched my semi-automatic heart
