

Automorrow "Grow"

Visit "[Grow](#)" on MotoLyrics.com

I won't be satisfied
With the world I see
If I don't believe
That we still have to

Grow until you feel the lines around you breaking
You can feel the limit as they step beyond it

Why won't you even try
All it takes is two
When we multiply
That we still have to

Grow until you feel the lines around you breaking
You can feel the limit as they step beyond it

I don't believe you
When you say
You can't change

You don't even listen
When I tell you
You have changed

All you've got is time

Grow until you feel the lines around you breaking
