Uh, uh, uh, uh, uh  
you know reversals at the board home early  
make a n\*gga feel personal (?) with the lord zones  
worldly  
thoughts on a whole different accord  
while n\*ggas still stressing on some sh\*t they can't  
afford or some broad  
f\*ck if it aint mortgage I ignore it  
need something awkward in my orbit to enjoy it or  
employ it  
I'm back motherf\*ckers where the toilet  
I know n\*ggas is sick but y'all haters blow dick  
fresh out the frying pan into the fire  
floating in something foreign with official attire  
desire to untouch unseen uncut one dream one nut I'm  
so mean summed up  
Ughh, I'm second to none  
slip through the portal exceptional run  
subliminals are sourceful the desolate one  
beyond your politicians so knowledge tradition pay  
attention  
this is what your scholar's been missing  
the making of a man this ain't making of the band  
celestial came from creation of the sand  
I Am...I Am...That N\*gga
