Never sentimental you know the shit a nigga into  
I'm cross-country it's big pimpin all the broads want me  
I'ma do this till the law confront me  
Fuck a slow jam kissing and holding my hand  
I'm a cold man stay flippin gettin that fam  
Who can blame me for all those days you tried to game

Switch and change me did shit that made me angry  
It's like payback watch the shit you say on this track  
I heard the stories how you get down lay on yo back  
True confessions why ask so i'm sexxin  
Who i'm blessin and if a nigga use protection

[Singer]

I've been feelin bad but not bad enough  
Not to walk away Oh no  
Feelin so sad cause thought you were my girl  
Since you betrayed me it's on...on.....

You know your wrong for trying to play me  
Now he's gone cause he's back wit me

[Chorus:]

He wasn't yours when he was mine I can't believe  
That you got down like that  
And now you know just how it b's  
Because it b's like that  
[repeat]

[Singer]

Never thought you just hurt me worse  
(how do you just) How do you just go on?  
Can't believe you tried to say it was someone else  
When it was you that I saw

You know your wrong for trying to play me  
Now he's gone cause back wit me

[Chorus]

[Animal]

I could see the whole game through the platinum  
frames  
I done hit niggas wives I ain't sayin no names  
I just drive through ya block in convertible drops  
Hand you and your best friend Sharon a rock  
Copped a house on a hill six car garage  
Back massage I'm into menage a trois  
Where I'm living at you can wear shorts in December  
You remember stay in the mix like a blender  
I'm goin up the middle I'ma spread y'all both  
I'm an animal you know I had to hit y'all both  
You and the doctor call back go ahead i'ma fall back  
Sex was wack but your best friend was all that  
Me and honey dip was creepin off for months  
Had her blowin on the pipe while I was blowin on blunts  
But you is trouble though I cop the six double O  
But i'ma let you go with the Lex bubble though  
Shorty think I trick alot cause she suck the dick alot  
I'm fuckin wit y'all like Sir i'm in the mix alot

[Singer & Background Singers]

Why'd you have to go and play yourself  
Girl you know you were wrong  
Now your sitting home all by yourself  
The man you thought was yours is gone  
[repeat]

[Chorus x4]
