My girl's a star my baby no one's touching my lady
My girl's a star my sugar always give me that good love
My girl's a star believe me do whatever to please me
my girls a starrrrrÃ¢â€šÂ¡
123 woo!

Chorus

My girls a star, I' build a rocketship,
take my rocket ship, wherever you are.
My girls a star [she a star you know] I build a rocketship

take my rocketship [ok] wherever [wherever] you are

Verse 1

like your girl cool, but look, mine better

and make this happen like the world was ending and
we were the last ones
my kind of girl that likes to have fun like lights, camera,
action!

My girl's a star my baby no ones touching my lady
My girl's a star my sugar always give me that good love
My girl's a star believe me do whatever to please me
my girls a starrrrÃ¢â€šÂ¡

out my window [window]

it's a bonus your body happens to be sicker than ever
I'm looking at you while I'm sipping my beverage
party like a rockstar 'till are heads feel severed
whoa, whoa so I just lost my head but if I do would you
love me then?

Excuse me, you, could I be your skin,
whoop you in shape could I be your gym, hmm?
I just wanna' be the driver in your get away car when
this movie ends hell yea

Chorus

My girl's a star, my baby no one's touching my lady
My girl's a star, my sugar always give me that good
