Yo God, through the knowledge, God, it's like this  
This world is rude and controlled by society  
That exists with the societies, that exists, with the  
societies, God  
You understand?  
These secret societies is maneuvering  
Within society to control society  
That's why society is outta control  
33rd and one third, I heard the illuminated ones, huh

The last days we're facin', that's the case when the  
emancipation  
Proclamation decays, back to the plantation  
The government plottin' a nuclear detonation  
Destroyin' vegetation, water, the newer order means  
starvation  
The I on the dollar symbolize illumination  
Of society, secretly overseein' population  
Understand it, the government plans to enslave the  
planet  
I'm trapped in a faze, thinkin' of ways, can it

Happen? 85 percent of the population nappin'  
Prayin' in churches, catchin' the holy ghost clappin'  
Across the border travellin', I found the Nile across the  
water  
Teachin' my peoples the age of the newer order  
Twenty five to click blood line, we toast off wine  
Snap clips in 9's, with minds more advanced than  
Einstein  
And Murman, knock down walls like Berlin  
Take it out, we can't get in, we can't win

We can't get out and we can't get in  
We can't get out and we can't get in  
We can't get out and we can't get in  
We can't get out

See I, wrote up a composition, I made a decision  
For competition, some invite lifestyles that I be livin'  
With tribes I been in, with the little brothers that's  
sinnin'

So I started to vision, crack fiends formin'  
On collision, my mind is in that position for soul fishin'  
My only dream was to be a musician  
Better yet a mortician, that's the life condition  
'Cos everybody knows they gonna die, crackers they  
analyze

[Incomprehensible] plus I feels the vibe, mother cries  
Plenty mothers that tries, now that she knows her son's  
gonna die  
Take a trip, pass the lye, now ease  
The mind escape from the crimes of New York times  
'Cos I'm one of the brothers who made it throughout  
the others  
The rotten apple's tryin' to break loose from these  
shackles  
No doubt, I follow routes, guzzlin' Hennessey, mixed  
with style  
In this ghetto, we can't get out, we can't win

We can't get out and we can't get in  
We can't get out and we can't get in  
We can't get out and we can't get in  
We can't get out

Nothin' can stop the nation, elevation, daily operation  
Since man creation, we increase the population  
Proper education, got us tappin' in information  
Preventin from gettin' locked under top-secret  
investigation  
Guiliani's part of Illuminati  
A million minds in one body designed to decline  
society  
They wanna lease 1.2 billion deceased  
While the rest is left with the mark of the beast on their  
domepiece

Prepare, the signs of the times now are near  
That I'll wake scare, findin' Zaire, soon be here  
So tune your ears, and be saved from a slave  
'Cos in a matter of days I'm-a E-Q your brainwaves  
AZ the visualiza is wise as Elijah  
Here to advise ya, and bring out the realness that's up  
inside ya  
Intoxication, my voice box rocks the nation  
Sweet affiliation, the doe or die situation

We can't win  
We can't get out and we can't get in  
We can't get out and we can't get in  
We can't get out and we can't get in

We can't get out

We can't win

We can't get out and we can't get in

We can't get out and we can't get in

We can't get out and we can't get in

We can't get out
