Everybody run from the FBI, pretty woman spots you  
and walks on by and you're running out of time. Throw  
a man in jail and he'll sin no more. Set a captive free  
and he'll be at your door and he's watching as you  
soar.

Hey it feels right to change your mind from the other  
side, we don't call shots but we've all tried to cover the  
shame.

Rock your body now till it hits the ground. Hope you'll  
come around and enjoy the sound. Wipe your tears  
away and stay.

Send a boy to space and he will scream out loud, lasso  
up the moon and we'll be so proud. And we're walking,  
yeah we're walking with the crowd yeah.

Hey it feels right to change your mind from the other  
side we don't call shots but we've all tried to cover the  
shame.

Rock your body now till it hits the ground. Hope you'll  
come around and enjoy the sound. Wipe your tears  
away and stay.

Rock your body now till it hits the ground. Hope you'll  
come around and enjoy the sound. Wipe your tears  
away and stay.

Rock your body now till it hits the ground. Hope you'll  
come around and enjoy the sound. Wipe your tears  
away and stay.

Rock your body now till it hits the ground. Hope you'll  
come around and enjoy the sound. Wipe your tears  
away and stay yeah yeah.
