Take your time as the melody begins to rhyme
You better throw us a sign
Cause we're ready to begin the cycles
The cycles

Save belief
It's a remedy you'll never see
You better pack up your things
Cause we're ready to begin the cycles
The cycles

They gave you everything and took it away
And it's a long way down
With no way out now
You made a fortune now you're ready for fame
And it's a long way down
With no way out now
There's no way out now
Long way down

State your line
Is it something that you can't define
You better wake up your mind
Or in the end you won't defeat the cycles
The cycles

They gave you everything and took it away
And it's a long way down
With no way out now
You made a fortune now your ready for fame
And it's a long way down
With no way out now
There's no way out now

Long way down
No way out
Long way down
Yeah

They gave you everything and took it away
And it's a long way down
With no way out now

You made a fortune now your ready for fame
And it's a long way down
With no way out now
They promise pleasure
But omitted the pain
And it's a long way down
With no way out now
There's no way out now
Long way down
No way out
Long way down
