

Autovein "Here With You"

Visit "[Here With You](#)" on MotoLyrics.com

Hiding myself in my favorite place
bury my head in my pillow case
cuz i'm here with you now

everyone knows that the harder it gets
the more that it shows and the more we forget
cuz i'm here with you now

somebody promise that i'll make the most of this
somebody honestly i'm really made for this

heaven help me
i'm not ready
heaven help me now
slow and steady
when your willing
heaven help me now

all of my life i've been set for this
feeling the years to prepare for this
but i'm here with you now
never a day that will pass us by
never a way for the love to die
cuz i'm here with you now

somebody promise that i'll make the most of this
somebody honestly i'm really made for this

heaven help me
i'm not ready
heaven help me now
slow and steady
when your willing
heaven help me now
