On my knees
You bring me to the ground
I can't make a sound
I can barely breathe
Standing behind me,
Your hands are binding
Suffocating me

Give me a chance
I just need this time (I don't want you this time.)
This time
You will stay away (Get away from me.)
From me this time (I don't need you.)

Blame me, but baby I'm not to blame
Who told you it's wrong?
Try pointing the finger the other way
This time you're under the gun
It's not my fault you're the one
The one who's standing in my way

Go on stay, away from me
Stay, please stay away from me

Save me, but baby who's there to save?
I'm running from you
It should have never been this way
I'm over goodbye
This time it's good luck, goodnight
(This time you won't survive)

Go on stay, away from me
Stay, please stay away from me

Give me a chance, I just need some time.
Damn the whole thing man, nothing is divine
Anymore, it's all wrecking my mind.
Thought I had an angel but was on the devil's time.
Shades in the darkness, didn't have a reason.
What's the point? I can't even recognize treason.
Hopefully that's the end of all the seasons
The people try and help, now maybe I'll believe 'em.

Go on stay, away from me
Stay, please stay away from me

Da da, da da da da da da.
Da da, da da da da da da.
Etc.
