We arrive at the scene  
We were only seventeen  
Remember like it happened just the day before.  
Make you laugh  
Make you smile  
Let's stay here for a little while  
We can wait 'till we're all alone on the dancefloor.

You've got my palms sweating and my lips locked tight  
We won't say a thing when we dance tonight  
Don't pay any attention when the song ends  
Just this once we can fake, we can pretend.

And we don't need any music playing  
We can make our own beat if we just keep swaying  
Our hips to the rhythm of our beating hearts  
I'd forgive you if you decided to tear it apart.

Blinding light, deafening sound  
I am lost while I am found  
Make me feel like I'm complete and destroyed  
Feeling start to arise  
I stare past your eyes  
Think I might have emotions that I can't avoid.

I've got my hands on your hips and your breath on my neck  
I try to keep cool, but I'm a nervous wreck  
Everyone's telling me that it can't last  
We can't control the future, so we'll cherish the past  
Baby we don't need to plan ahead tonight  
Just go with the flow if the feeling's right  
And we'll play by ear  
I draw you near and...

We don't need any music playing  
We can make our own beat if we just keep swaying  
Our hips to the rhythm of our beating hearts  
The DJ's saying the night is concluded  
But we can keep dancing where we're secluded  
We won't care what anyone says  
And all we'll here is

La la, la la  
La la, la la la.  
Etc.

We don't need any music playing  
We don't need the music.  
We don't need any music playing  
We don't need the music.
