Allow me to see you like the sun  
Allow me to hear what's inside of me  
Keep me on the edge of my grave  
Don't allow me to look downward

Carrying away in myself the tortures in my bones  
Falling asleep with the broken entreaty  
Cover me with coverlet of Funeralia  
... if you are... if you're here...

If you are... give me your hand  
If you're here... give me your hand

Last words... a palm have touched the lips  
Farewell... we fall asleep together [forever]  
If you are... I pray, take away it from me  
If I am... I'll never wake up again

If you are... give me your hand  
... please...
