I walk across the land  
Where the mountains rise  
A strong and cold wind blowing hard  
And the flawless stone hides

The reason for my journey burns  
Can't you see the glow  
A world beyond the promised land  
On the road until the end

[chorus:]  
Eternal flame  
That shines the night  
I'm away till the morning light  
Eternal flame  
That shines the night  
I'm away till the morning light  
Eternal flame  
I'm awake  
Joining one with all  
Into the sky I'll fly

I walk across the land  
Where the holy river flows  
The people gather to it's banks  
Where the lotus flower grows

Revealing all the secret shades  
So can you feel the might?  
My journey back to my motherland  
Unfolding a serving hand

[chorus]  
... I see the white up in the dawning sky

It carries me to mystic shores  
Gonna leave you 'cause I'm begging for more  
We've known each other so long,  
I know, way before

The winds will take me so far away  
I'll leave you behind, but I'm longing to stay

We'll be together again,  
I know, another day

Everything is suffering  
Striving for live  
Give up the craving  
And what remains...  
The eightfold path  
The end
