When we look at our world today  
The beauty has gone and the sky is grey  
We don't know, what's going on

This man has brought us a life in chains  
His power rules and we cry in pain  
Oh Lord, please help us turn down his reign

[chorus:]  
The holy land  
Go hand in hand  
Our prayers will bring joy and freedom  
The holy land  
Is the only place alive  
To live as one

When we look at our children today  
They see their world in a different way  
We can't let the man... lead them astray

Why destroy our nature each day?  
Every tree has a life and it's taken in vain  
Take us back to the past, we've got to save...

[chorus]  
... is the only place on earth

It's hard to imagine what future will bring  
Let freedom prevail and our children sing  
Back to our roots, we've got to save...

[chorus]
