Girl, I got some music  
I'm tryin' to make with you  
But before we get into it  
Let me explain the rule

Don't worry 'bout the tempo  
Any minute it could change  
And the melody could be whatever  
Long as it's my name

With me, it's your first time  
So I'mma let you freestyle  
Say whatever comes to your mind, yeah  
But me, I been doin' this for a while  
It's okay if you can't keep up with mine

How long does it take to reach a peak?  
Thinkin' 'bout the work I'mma put in to make you  
scream  
I won't disappoint, that's on everything  
Whatever you want's gonna happen in this Hot 16

Tell me if you want to, this is what I'm gon' do  
It ain't gon' take all night long  
We about to make a masterpiece  
Something to remember when I'm layin' you in this Hot  
16

Baby, catch the rhythm, synchronize our flow  
When it comes together, it's unbelievable  
Could it be the drum snare has got us?  
Damn, it's getting' hotter

Down the small of your back I feel  
You're excited and gettin' chills  
And you're body's takin' over, girl  
Be open to this poetry  
We rhyme new positions, makin' history

How long does it take to reach a peak?  
Thinkin' 'bout the work I'mma put in to make you  
scream

I won't disappoint, that's on everything  
Whatever you want's gonna happen in this Hot 16

Tell me if you want to, this is what I'm gon' do  
It ain't gon' take all night long  
We about to make a masterpiece  
Something to remember when I'm in the Hot 16

It's our first time together, I swear it's magic  
And when it's all over it's gon' be a classic  
16 without you, I just can't have it  
And it's time you make the way you shake every  
present place

Got me on another page  
You take my attention with every breath you take  
And everything you do it's got me feelin' you  
A few more lines and sessions, we'll be through

How long does it take to reach a peak?  
Thinkin' 'bout the work I'mma put in to make you  
scream  
I won't disappoint, that's on everything  
Whatever you want's gonna happen in this Hot 16

Tell me if you want to, this is what I'm gon' do  
It ain't gon' take all night  
Girl, we about to make a masterpiece  
Something to remember when I lay here in this Hot 16
