I got your legs spread all over the bed
Hands clenched in the sheets
Hair wild as hell I know
The only thing on your mind is sex in me

Girl, I can feel your temperature rising
You should feel my nature too
Come on you should its gonna be a bumpy ride
Girl lets do what we came to do

Girl, when we make love all night
When we make good love all night
When we make love all night
We really make love

Girl, when we make love all night
When we make good love all night
When we make love all night
We really make love
(Come to Daddy, baby)

On the balcony ripping the rails
Slowly I'm pulling you near
Sayin', shh, babe don't make too much noise
There's a lot of peoples who live around here

Emotions running high
My hands planning on your thighs
You feel me going up and down
And round and round and round

Girl, when we make love all night
When we make good love all night
When we make love all night
We really make love

Girl, when we make love all night
When we make good love all night
When we make love all night
We really make love
(Come to Daddy, baby)

Girl, your drive wait in the back seat
Windows tinted its getting deep
Ffog all over the glass
I don't know how long I can last

With you moaning crazy
Girl, keep on calling me
I'll take you to ecstasy
And when I'm done you'll be fast asleep

Girl, when we make love all night
When we make good love all night
When we make love all night
We really make love

Girl, when we make love all night
When we make good love all night
When we make love all night
We really make love
(Come to Daddy, baby)

The house the boat and the jeep babe
In the tub in the pool or the beach babe
Get your grove on
(Get your grove on)
Get your grove on
(Get your grove on)
Get your grove on

Girl, when we make love all night
When we make good love all night
When we make love all night
We really make love

Girl, when we make love all night
When we make good love all night
When we make love all night
We really make love
(Come to Daddy, baby)
