i met her outside of tiffany's
she caught me staring and she smiled at me
she was in a hurry said she had to leave
but i couldnt let this moment pass me
so i got her number and i called her up
from our conversation she was so caught up
if you knew this girl then youd know whats up
so i spoke my mind and said to her

your body is the business and i want it
dont you get it twisted like we are just friends
i want to get in them jeans and i know it
if you're ready just go call your daddy im on my way

we gon stay we gon stay we gon stay here
we gon lay we gon lay together
baby its going down
if you're ready just go call your daddy im on my way

her personality is so sweet
she has no problem sayin shes feeling me
we stay out off in the 2 or 3
when its time to go its hard for me to leave
she dont want to rush it but im ready baby
anticipation got me going crazy
we can get it poppin til the break of day
dont take this the wrong way but its something i gotta
say

baby just let me (take you to my bathroom)
and lay you down (do something sexy to you)
girl you gon like it(oh)
dont try to fight it(yeah)
yes we gon have some fun promise i wont hit and run

your body is the business and i want it
dont you get it twisted like we are just friends
i want to get in them jeans and i know it
if you're ready just go call your daddy im on my way
