(Chorus 1)

You make me want more  
Got me anticipatin you more  
Girl I really, really want your body, body  
The way you put it on me  
Got me thinkin bout the very first time

(Chorus 2)

You make me want more  
When I'm goin strong I want more  
Girl I really, really want your body, body  
The way you put it on me  
Got me thinkin bout the very first time

(Verse)

You were at the peak,  
Your knees was weak  
And the sweat was dripping all over me  
And I changed the pace  
We took water breaks  
We was at it, should've seen your face

(Bridge)

And you knew exactly what to do  
To keep me excited, girl you're so inviting  
Know I know where I need to go  
When it gets serious, girl

(Chorus 1)

You make me want more  
Got me anticipatin you more  
Girl I really, really want your body, body  
The way you put it on me  
Got me thinkin bout the very first time

(Chorus 2)

You make me want more  
When I'm goin strong I want more  
Girl I really, really want your body, body  
The way you put it on me  
Got me thinkin bout the very first time

(Verse)

Got your legs in a V  
Then switch to an N  
And it feels so good, we gotta go again, girl  
When it happens, go to sleep  
Wake up in the morning like it's make believe

(Bridge)

And you knew exactly what to do  
To keep me excited, girl you're so inviting  
Know I know where I need to go  
When I wanna hit it, girl

(Chorus 1)

You make me want more  
Got me anticipatin you more  
Girl I really, really want your body, body  
The way you put it on me  
Got me thinkin bout the very first time

(Chorus 2)

You make me want more  
When I'm goin strong I want more  
Girl I really, really want your body, body  
The way you put it on me  
Got me thinkin bout the very first time

(Verse)

It is unbelievable how you make me feel, girl  
I'm lovin your touch, girl it seems unreal  
Oh woa girl  
Unbelievable how you make me feel, girl  
Won't let go, can't let go  
Baby girl, I really want you to know

(Chorus 1)

You make me want more  
Got me anticipatin you more  
Girl I really, really want your body, body  
The way you put it on me  
Got me thinkin bout the very first time

More

When I'm goin strong  
More  
Girl I really, really want your body, body  
The way you put it on me  
Girl you got me thinkin bout the very first time

You make me want more

Got me on it on it on it baby  
More  
Girl I want it want it want it baby  
I want your body, body  
The way you put it on me  
Girl you got me thinkin bout the very first time

More  
When I'm goin strong  
More  
Girl I really, really want your body, body  
The way you put it on me  
It reminds me of the very first time that we made love
