She knows me  
I know her  
She wants me  
And I want her  
Seems like  
She's breakin me down  
I can't hide  
How I feel inside  
It's to deep  
I fall weak  
I'm up like 24 hours can't sleep  
Your touch is too much  
And I don't kno how long before you write me?

I know they like  
The way u move  
Provocative  
Something got a hold of me [?]  
You can ask across the room  
So provocative  
I just got to get away  
Provocative [x3]

She moves with  
Precision  
Her swag is  
Convincing  
Her venom  
It poisons me makes my heart  
Race and then it's hard to breath  
It's too deep  
I fall weak  
I'm up like  
24 hours can't sleep  
Your touch  
Is too much  
And I don't konw  
How long before you write me?

I know they like  
The way u move

Provocative  
Something got a hold of me [?]  
You can ask across the room  
So provocative  
I just got to get away [get away]  
Provocative [x3]

She likes a part of me  
Frozen in time  
The way that she gets me  
Is hard to define  
Feels like a a movie  
The suspense is killing me  
I'm afraid of how the  
Story ends

I know they like  
The way u move  
Provocative  
Something outta hold of me  
You can ask across the room  
So provocative  
I just got to get away [get away]
