[Intro:]

IÂ'm your director  
Its getting deep  
We donÂ't need to rent nothing, weÂ'll make our own  
movies  
IÂ'm your director  
Its getting deep  
We donÂ't need a videotape or a camera  
To make this ghetto love scene  
Whoo  
I wanna welcome everybody here tonight (uh)  
Its such a beautiful occasion (yes)  
I wanna tell you the way I feel (you know)  
This is for the ladies  
I wanna take you to a place youÂ've never been before  
(take you there)  
Sit back and enjoy this ride

[Verse 1:]

Our love exploding in the air  
Like the works on the 4th of July  
Or like the sun how it sits upon the earth  
Shine through clouds in the sky  
I might never get as much air time  
As a pilot would get  
But IÂ'm sure right to do things  
That we both havenÂ't tried yet  
Take a trip to the moon  
Just me and you  
And weÂ'll shine on the earth  
IÂ'll show the world what youÂ're worth

[Chorus:]

Did ya like that  
Tell me  
Did ya like that  
I just wanna, I just wanna show  
So many ways I  
Wanna show you what  
Take our love to another level  
So many ways I  
Wanna go to a new paradise

Just one blink of an eye  
So many ways I can  
And Iâ€™ll never let you go

[Verse 2:]

Cause this  
This message of love is what Iâ€™m sending to you  
I love you so much thereâ€™s nothing I wouldnâ€™t do  
For you, for you  
Let me be the reason you come from the floor with  
nothing but love (??)  
Like an orphan at Christmas  
Who gets a million toys  
There's no words to explain how it felt when we met  
But I  
Iâ€™ll try with this song and see how far I can get  
It feels like Heaven  
When youâ€™re wrapped in my arms, thatâ€™s what  
comes over me  
It feels like Heaven

[Chorus:]

I just wanna, I just wanna  
So many ways I  
Wanna show you what  
Take our love to another level  
So many ways I  
Wanna go to a new paradise  
Just one blink of an eye  
So many ways I can  
And Iâ€™ll never let you go

[Verse 3:]

Take you to a place far away from here  
Go somewhere to erase your fears  
And feel free about life, no worries, in your life  
Take you to a place far away from here  
Go somewhere to erase your fears  
Grass is greener on the other side  
Just sit back and enjoy this ride

[Chorus:]

So many ways I (lets go)  
Wanna show you what  
Take our love to another level (far away)  
So many ways I (take a car ride)  
Wanna go to a new paradise  
Just one blink of an eye (just me and you)  
So many ways I can (so many ways)  
And Iâ€™ll never let you go

[Outro:]  
Ain't nothing stopping us (nothing stopping us)  
Grasp this opportunity (??)  
Yeah, yeah, yeah...  
Yeah, yeah, yeah...  
[repeat]
