(Intro)

Yea, ladies and gentlemen  
This goes out to you  
You are now about to witness  
Something quite specticular (that ain't even a word)  
Or should I say spectacular? (oh that's better)  
So I want everybody to put your glasses up (put em up  
in the air)  
And we about to make a toast to love

(Chorus)

Never thought I will be the one  
To ever have love come my way  
Now that it's here  
I will treat like sunshine in the day,  
It's so real  
Gotta fill up my cup and celebrate  
Let's toast to love, hey  
Let's toast to love, hey

(Verse)

I was tryin to find that one for me  
But my life was wrapped up in the streets  
Then you pulled me in with your honesty yea  
And you planted your seed, my baby uh  
Never thought that love could be so kind, be so kind  
Then you stole my heart and you changed my mind  
You and I, let's take a flight  
I got so much I wanna say  
So let me say it this way, my baby yea

(Chorus)

Never thought I will be the one  
To ever have love come my way  
Now that it's here  
I will treat like sunshine in the day,  
It's so real  
Gotta fill up my cup and celebrate  
Let's toast to love, hey  
Let's toast to love, hey

(Verse)

Never want this feeling to subside  
'Cause your beauty opens up my eyes  
And it change everything from wrong to right  
I'm flying high as a kite, my baby, yeah, yeah  
The state of mind that I'm in got me gone with the wind  
'Cause there's thing that we share and more than  
friends  
When I say it's not a game  
Expectation's easy to me  
You put my mind at ease

(Chorus)

Never thought I will be the one  
To ever have love come my way  
Now that it's here  
I will treat like sunshine in the day,  
It's so real  
Gotta fill up my cup and celebrate  
Let's toast to love, hey  
Let's toast to love, hey

(Interlude)

I can't imagine life without you  
You make everything like  
In my life, and it's so real to me baby yea yea

(Chorus x2)

Never thought I will be the one  
To ever have love come my way  
Now that it's here  
I will treat like sunshine in the day,  
It's so real  
Gotta fill up my cup and celebrate  
Let's toast to love, hey  
Let's toast to love, hey
