(Out of time)

Doc, I'm dying, I'm feeling compromised

(Feeling compromised)

And so dehumanized

(And so dehumanized)

I lost my final fight to disease

I feel that this is where it ends

I need that shot to enter my vein

My Brompton cocktail blend

?Cause I can't feel my face

I won't struggle on

In a world so cold

In a world so wrong

I'm not running away, been fighting this so long

(So long)

Such a price that we pay, we gotta be so strong in a lie

I'm tired, induced euphoria

(Induced euphoria)

To help me move along

(Help me move along)

I wanna meet my maker in peace

I want to feel alive again

So put that smile back on my face

And mix it strong, my friend

?Cause I can't feel my face

I won't struggle on

In a world so cold

In a world so wrong

I'm not running away, been fighting this so long

(So long)

Such a price that we pay, we gotta be so strong

And I take my life tonight ?cause I have the right to die

how I wanna

And leave how I arrived, so alive

I believe my sins have been forgiven
And I believe my choice will save me from this life
Please don't question why my sins have been forgotten
I believe I'll find peace in afterlife
Please don't question why I left this way

?Cause I can't feel my face
I won't struggle on
In a world so cold
In a world so wrong

I'm not running away, been fighting this so long
(So long)
Such a price that we pay, we gotta be so strong
And I take my life tonight ?cause I have the right to die
how I wanna
And leave how I arrived, so alive
(Alive)
