Don't acknowledge right, just dwell on wrong

When I bleed forever
through my pores it seems to seep...
Like a man plagued with disease, I try to fight
But slowly eats away
Outside shell is strong - confident

Don't know why it started or where it came from
I've come so far - it's been so long
This spot in hell's where I belong
Don't acknowledge right, just dwell on wrong

This will never end and I'll bleed forever
Thoughts are haunting me as I look around
The air is cold and thin
(it just sits there..)
Dust begins to fall, to the ground
This spot in hell's where I belong
I've come so far - it's been so long
Don't know why it started or where it came from

And you sit there and do nothing
You're content with doing nothing

There's nowhere to run and hide
when you're living to die
Stuck alone inside your head,
better off dead
The phone would ring in the empty house,
no one's around.

Don't acknowledge right, just dwell on wrong
This spot in hell's where I belong
I've come so far - it's been so long
Don't know why it started or where it came from

But in my life, I wanted more, I needed more
I taste more.
