My 16 locked and loaded
All fear has been avoided
You say the words and my weapon is drawn

This one could be my last time
Some people call it war crime
I may be staring down a lethal sight
To die

Nothing shocks you like a bullet hole
Leaving my fear on the danger line
Suffering no man should ever know
Leaving my faith on the danger line

I do this for my family
My daughter loves her daddy
Too many talk down on things they don't know

With colours never faded
Reckless and unabated
They may take me but never take us all
I'll crawl

Nothing shocks you like a bullet hole
Leaving my fear on the danger line
Suffering no man should ever know

Leaving my faith on the danger line

I know what you're thinking, I've been there before
So think of the times, the time we spent laughing away
So think of the times at home (life without a care)

Now I find myself in my own blood
The damage done is far beyond repair
I never put my faith in up above
But now I'm hoping someones there

I never meant to leave this world alone
I never meant to hurt the ones who cared
And all this time I thought we'd just grow old
You know no one said it's fair

Tell my baby girl that it's alright, I've sung my last song
today
Remind the Lord to leave his light on for me
I'm free
