Time slips by like grains of sand  
Depression lasts it will not end  
Darkness falls before his eyes  
Spiralling into demise

[Chorus:]

Flashback in his mind  
All of those who died  
Forced to kill from youth  
Time heals not the wounds

No drug can destroy his pain  
Lost inside without a friend  
Those he knows want to forget  
Atrocities they did commit

[Chorus]

A broken man is on the edge  
Now the killing must be done  
No return to normalcy  
Must adapt to society  
Adapt to society

A policy of hate enforced  
Troops of death consume the world  
This plague of blood cannot be stopped  
The human race it propigates
