Wake up, little baby
Open your mind
See, the world through a
Different set of eyes

I'll whisper, in your ear
Pray won't you, hear me

Cus it's time, time, time
To come to the light
Time, time, time

Lay down your head
And show us some mercy
And lift up your heart
And keep it pearly

Cus it's time, time, time
To swallow your pride
Time, time, time

Yes it's time, time, time
To leave you're past behind

Why, you so greedy
When others are needing you
They live that this freedom that
If you seek the truth

Cus it's time, time, time
To do what is right

Time, time
To swallow your pride

Time, time
To come to the light

Time, time
Before it's goodbye
