I never knew such a day could come
and i never knew such a love could be inside one
i never knew what my life was for
now that your here
i know for sure

i never knew til i like in your eyes
i wasn't complete til the day you walk into my life
& i never knew that my heart could fill so serious and
pure
one love so real

can i just see you every morning when i open my
eyes[oh baby]
can i just feel your heartbeat sing beside me every
night[and every day]
can we just feel this way together until the end of all
times
can i just spend my life with you

now baby the days and the weeks and years gone roll
by
but nothing will change the love inside you and i
and baby ill never find any words that could explain
just how much my heart, my life, my soul, you've
change

can you come these open arms when no one else
understand
can you tell god that im your women, your my men
can you just feel how much i love you one touch of my
hand
can i just spend my life with you

no touch has ever felt so wonderful [you are
incredible]
and no deeper love i never [i never known before]
i swear this love is ture [love you forever]
for you, for you

can i just see you every morning when i open my eyes

can i just feel your heartbeat sing beside me every
night[and every day]
can we just feel this way together until the end of all
times
can i just spend my life with you
always

can you come these open arms when no one else
understand
can you tell god that im your women your my men
can you just feel how much i love you one touch of my
hand
can i just spend my life with you

can i just spend my life with you
forever here with you
can i just spend my life with you
can i just see you ever morning when i open my eyes
