Maybe I could bow
To the way I lie, to the way you ruin my life
Just to let you know I've stopped feeling miserable

In fact, we've been falling down for years
In the mail we lost control and abused of acronyms

Sink down
You said an engage was gonna happen
But your tongue made an honour to your name and
so...

Blacked out
My withered eyes
And that was all
In your embrace
I'm trying hard
To work this out
Even there are ways to feel more miserable

In fact, I'd been told
That you were the face of lust
You said an engage was gonna happen
But your tongue made an honor to your name and that
was all 'cause

Maybe I could yell that's over
Your crop on fire, it's a miracle
Maybe I could fall violet but not

Break down!

Run around the roof
This is my illustration

Run around the illustration
My fist, my roof

Run around the roof
This is my illustration

I dare you bitch

Maybe I could bow
To the way I lie, to the way you ruin my life
Just to let you know

Fall in fact we'd been falling down for years
In the mail we lost control and abused of acronyms.
