Wake up!
We're getting out of this place,
Nothing can go wrong.
Everyone's searching this kingdom
For a fitting crown.
Concealed in boxes where we are distressed,
We must leave our shoes, 'cause we lost our chance
inside our shoes.
Erase the trace,
We'll act tonight.

We're meteors on fire
Signing the skyline,
We Shine as we approach the earth.
When I close my eyes there are fighting sparkles,
We'll have to act tonight.

Never sleep again,
We're not stranded.
Life is a thriller
And readers won't be disappointed.

Right now
We're celebrating this arrangement
That took us so long
During those random days
When plans were just unshaken words in our basement.
Get away.
Divas choke on the twenty-fifth hour remix.

We're aware that we are hard to swallow
When we walk faster than our satin shadows

Faces betraying their sellers,
Some grow up while some get older,
But now they want to be a part of this team.

Mosquitoes fall asleep inside a tornado.

Right now
We're celebrating this arrangement
That took us so long

During those random days
When plans were just unshaken words in our basement.
Get away...
All preachers turned out to be our guardians.

This is the escape
That all of us had dreamt about,
And now there's something that I control.
We're aware that we are hard to swallow
When we walk faster than our satin shadows.
