Witness to an endless storming cosmos  
Casting towards the cold empty beyond  
Beatific flares tear at my skein  
Divination strains to chart a course

Hull ignites and alters  
To form a hurtling pyre  
Flames my panegyric  
Will my cynosure

Torrid in resistance  
Tearing through the veil  
Chaos screaming  
Parallax is mine alone

Dreams as navigation  
Holds of airless might  
Boundaries of compression  
Violent in my wake

Tethers slash hide  
Layers of time expand  
Perception now procumbent  
Echoes polarized

Rushing headlong, streaming ashen lies  
Terrible portent lodged, drishti binds my mind  
Symbiotic predestination  
Terminus: divined

Prisons unbound  
Mandala divides the light  
Tetrarchic prayers  
Answer prismatically

Doom spreading from below  
Roots anchored in death  
Culminate as one  
Dissipate as null  
Propagating...

Cyclical existence of failure

Punctured through thaumaturgical siege  
Immersed in a world of shells  
All life within evaporates

Memetic weaponry  
Averred against  
Gammadion wings  
Inferno in my mind

Founder beneath the sun  
Thrumming howls of demon  
Pushing aside the ruin of thought  
Mantled in schematic litanies

Chains of execration  
No longer binding me  
My essence forged in canopic restraint

Singularity  
Reborn in parallax  
Extinguishing  
The primordial soul
