### Verse1:

Yo listener, the reason why you like to listen  
Be real cause I make these bars drop and be getting it  
I can write a whole song out my brilliant brain  
Shock you, your imagination will not be the same  
I can take you back so far in history with the pilgrims  
To sum it all up it's like Pythagorean theorem  
I create the goosebumps that be on your skin  
Hair sticking up turning white, I'm here to win  
And yall opening up a genius, opening up genius  
My body was deported from mars not venus  
And I know you mc's hate and it's really tough  
To face fact that, I am a diamond in the ruff  
Music more than flow just ask my clients  
It's involves deep thinking something like a scientist  
I be hustling and grinding in my lab  
See that vial over there let me have it, grab

### Chorus: (2x's)

Albert einstein  
I got an idea and it's really bright  
Somebody in my brain just turned on the light

### Verse2:

Boys and girls this aint your ordinary rapper  
I love electricity click pop zapper  
And I'm so subliminal yo, I'm your brain  
Right now I'm looking around rearranging things  
These other rappers I give props cause they did they  
stuff  
But now that avias is out they will not get enough  
Cause I drop it like this, the bars so stacked  
Then I come around drop it again don't you like that  
I'm an old man that's trapped in a young body  
Then a baby inside too someone grab the potty  
Sometimes I go in to deep it can be really frightening  
Aint no blood in my veins but what travels is lightning  
If you don't see some things my way it wont me cry  
But others with real vision yo we see eye to eye  
Now I drew it with chalk so just follow the line  
To a world of mystery I'm albert einstein  
Dis aint no bill nye the science guy open your mind

Now that you just heard this yes you are are all mine  
I'm the newest rapper out so enjoy the flow  
The more they create then beats them uma go

Chorus: (2x's)

Albert einstein

I got an idea and it's really bright

Somebody in my brain just turned on the light
