Chorus:

Do anybody know just what's it's like (4X'S)

Verse1:

I asked once simple question do yall know just what it's like

Being judged all your life cause you like yellow and not black

Naw let me go deeper like vocals through a mic

Um talking niggaz hating you cause yo lifestyle wasn't right

Growing up through the years with no father in your life
Mom doing all she could just to set our boundaries right

At work all day sister watching on the side

Everywhere you go you gay people shutting down your pride

Chorus:

Do anybody know just what's it's like (4X'S)

Verse2:

The more you live the more you learn I just keep waiting on my turn

To show all who doubted me I am a star by the end of this song

Growing up through fights standing up for myself
Mom gave us all she could no matter what was her wealth

Took us to all our check ups so we were good health
And all you other haters out there bring it on stealth

In this day age things shifting to change

And I'm being acknowledged just for my name

Chorus:

Do anybody know just what's it's like (4X'S)
