Verse1:

No more battles music that make your soul rattle
Finally respect from hataz I'm on something new
progress to the better
No longer make music cause I am the beat so I hope
everyone can handle the
Heat
Making listeners listen makes my life complete every
blue moon a hater ctrl
Alt and delete

Chorus:

Music is evolution put a dance in your heart revolution
Just feel this beat like it's fusion just look at the moon
it's a blue one
A person away from your ordinary just listen to lyrics
they so contrary
Grab a person and head to the floor we party party
party till it's morning 4

Verse2:

Here we go it's avias seay listen a lil closer come feel
this beat
I made some new we can call it techno think other
rappers touching ya boy
Heck no
Gone dance a little bit, gone dance to this beat
Let em know that you bad, no one else can compete
Futuristic like mars modern like t.v.
Show the hataz you that you love me I'm yo best m.c.
Graduated from the studio attach me some me wings
A jet pack, a few stacks, some material things
Naw nevermind that I got my watches and my rings
And if you love me when I rap then listen when I sang
Oh my gosh it's overload too much coming out my
brain
Hurry up now to the chorus before I ruin this thing
Naw nevermind that cause I leave it to the lames
Fake music they abuse it so who else is it to blame

Chorus:

Music is evolution put a dance in your heart revolution

Just feel this beat like it's fusion just look at the moon
it's a blue one
A person away from your ordinary just listen to lyrics
they so contrary
Grab a person and head to the floor we party party
party till it's morning 4

Break it down uh oh now here we go
