Okay I need street cred when I drop this one!
Avias seay flashing lets go

Verse1:

I went to a city named tampa that was ratchet
Chatted with a couple thugs we started getting it
cracking
Touched up on a topic what they call they girls that bad
and
Said they call them snatching but in lakeland it's
flashing
This chick flashing that chick flashing
Brighter than the color of white perm with relaxin
Keep her nails done and her kids with satisfaction
Get it from her job cause if a nigga she aint asking
Aint worried about a nigga getting paper cause they
boring
Heard it all before like many sounds of different horns
Keep more gold around her neck than the color that's
on corn
Got a good head on shoulders mind made up of where
she going
And when it come down to a real nigga love him pro
Any nigga put his hands on her blow him like dro
Any chick get ratchet, lights out like teco
Ebt stay reed-up when she walk up in the store
Got more ballers by her side than a whack game of
pool
Got some niggas that will spend and some white ones
really cool
Never let her nigga use her but will work him like tool
Go to work got many talents and girl that's trying to
move

Chorus:

If ya 5 star chick instead 4 girl you flashing
Keep a steady job with the flow girl you flashing
Everybody aint welcome in yo door girl you flashing
Yall chicks snatching but our chicks flashing
Clean on every scene always fly never slacking
Dress code amazing never walk out looking tacky
Keep a hater hating and a nigga never asking

Yall chicks snatching but our chicks flashing

Verse2:

The thugs said avias are you serious yo killing me
Yall call yall chicks flashing don't be lying be forreal
with me
I told em dead ass on my life yo silly me
I forgot to state the other reasons so here they be
A chick that keep a happy home pay all utilities
Aint worried the drama in the streets responsibilities
Ya she might drink but stay within principalities
Bud lights but always focus call that drinkability
And if a real nigga need her you count her for coming
If a nigga in the cell she coming through wonder
woman
Always keep her walls clean it's good flow with her
plumbing
Attitude like heather marie any chick they run it
And she got a figure on her like them girls that's from
the islands
Jamaican jerk chicken, rice beans with the frying
Shining like a fancy new whip you to bound to buying
Flashing like a new church suit with tie and

Chorus:

If ya 5 star chick instead 4 girl you flashing
Keep a steady job with the flow girl you flashing
Everybody aint welcome in yo door girl you flashing
Yall chicks snatching but our chicks flashing
Clean on every scene always fly never slacking
Dress code amazing never walk out looking tacky
Keep a hater hating and a nigga never asking
Yall chicks snatching but our chicks flashing
