#### Verse1:

Wake up in the midst of dawn ready to flee  
Flee a happy family that made you complete  
Yes our family was filled with laughter and tears  
No we were not perfect but who family is  
Driving through the breeze way catch you down in the  
hood  
Hanging out with niggaz that meant you no good  
You were too talented you shouldve been a star  
Feds got up with you now you behind bars  
If you were out, you were about, rapping bars  
Other rappers reconsider when you around yo the  
pause  
Cause they think uma beast but you murdering now  
Have em step rap game up showing them how  
Sometimes I branch off from reality refer back to past  
I knew you had a bad attitude think how this gone last  
And even though you gone my heart suffer disaster  
But it remain in my head before there's always an after

#### Chorus:

No matter how far you are we will never part  
Like two magnets radiate bring together our hearts  
Cause they can say what they want you gone always  
shine  
Yeah you might be locked up but you free -in- my- mind

In my mind (3X's)

#### Verse2:

Like I said once before you are free in my mind  
Referring back to the past like seeing from blind  
Think of all the fun times we had in the hoop  
Yo friends my friends they loving us too  
You my brother so this rap shit um holding it down  
Even though you gone I know uma make you proud  
And I gotta hustle the way momma showed us too  
Standing up for my name music buzzing ooo  
The more I think about you it just motivate me  
People stay negative you told me that's hat-ing  
"pooh don't worry about that"... just do you

Rather sport my chuck taylors than a nike shoe  
But I'm building foundation so oneday we will rule  
When we drop tracks rappers drop jaws and drule  
Like a tongue twista uma hit you with new flow  
Know you coming home soon you got keys to my door

Chorus:

No matter how far you are we will never part  
Like two magnets radiate bring together our hearts  
Cause they can say what they want you gone always  
shine  
Yeah you might be locked up but you free -in- my- mind

In my mind (3X's)
