Verse1: (chipmunks)

I'm all grown up now... said I'm all grown up now
Got my high school diploma and gotta make it
somehow
North, east, west or should I take it down south
I'm too young for the real world need someone to show
me how

My teenager heart just burst into adult
Like a bird about to leave the nest I'm having many
doubts
What do I do facing these situations how to get out
How can I tell what's good or bad for me on this long
life route

(Chipmunks)

Chorus:

I don't want to leave high school I don't want to grow up
Too much responsibility I can't handle this stuff
Parents putting too much on me when enough is
enough
All these high school memories it's like I'm just stuck

Verse2: (avias)

I remember those days skipping class down hallways
Tryna focus on drama then later on g.p.a
Hitting football games living life like um living fancy
Social lite in all conversations shouting Avias Seay
But it's avias seay cause I rock em hard when I rock em
on da beat
Like a class president I tell em it's no need to compete
Got the chipmunks and yess all three, furry mink coats,
bmw auto start key
And I see a new life when I hit college like um gone be
free

(Avias)

Chorus:

You don't want to leave high school you don't want to
grow up
Too much responsibility you can't handle this stuff

Parents putting too much on you when enough is
enough
All these high school memories it's like you just stuck

(Avias and chipmunks)

Chorus:

I don't want to leave high school I don't want to grow up
(chipmunks)

Too much responsibility you can't handle this stuff
(avias)

Parents putting too much on me when enough is
enough (chipmunks)

All these high school memories it's like you just stuck
(avias)
