Chorus:

I control my life

I control my life

Verse1:

First off I'm a rockstar, came here make yall jam

But it's just this one thing yall gotta understand

I control my life everything I that I do

Forget the opinions I follow my own rules

Yo it's 2012 first name avias seay does it ring a bell

Lyric game so hot like the deepest hell

And yo boy so fly like urgent delivered mail

Anyways tired of the worlds opinion on things

I control my life, like fingers on guitar strings

These niggas make me sick, so sick to my pelvis

Make me wanna leave rock just like elvis

And it's time to wrap it up, and haters yall can have it

Uma rock this world just like lenny kravitz

If I see a check then a nigga gonna grab it

Forget my past, drop it like a bad habit

Chorus:

I control my life

I control my life

Verse2:

Nothing never is perfect

I can't satisfy my self, so why would I try to satisfy

people that really

Don't care

Tired of the criticism, and the strangers when they
stare

Can I just be free and get the hatred off my hair

If I want to party sun up and down

That is just my choice, and I don't need you around

It is my life like gwen stefani said, mlk fought for our
rights and now he

Is dead

If I want to sky dive, chug till I choke

I don't need your okay, I don't need your vote

I control my life like channels on a remote

Or the steering when I set sail on a boat
People nowadays got the whole thing twisted
Like the wrong, missing victim listed
Think they control my life and choice
I'm standing up for the ones that don't have voice

Chorus:

I control my life
I control my life

Verse3:

Here we go here we go here we go again
Round and round and round and round my friend
Now the harassment start when is it gonna end
I been doing this rap shit 2010
Ladies if you got a man, yo a man that wont let you be
what you can
Tell that nigga good bye cause it's your life
Cut that tension like a sharp stainless steel knife
Fellas if you got a girl that's holding you down,
Even got ya family where they wont come around, let
her go so fast like the
Speed of sound, turn that evil smiling face into a frown
And my choices change they change with the wind
I don't hang with the fluke, flop, fake, lames friends
I just want the judgement from my haters to end
But who cares anyways I'm just here to win

Chorus:

I control my life
I control my life
