Verse1:

Watch the black navigator pull up to the port
Valet service, beep beep chirp now um ready to board
Now I'm ready to part, leaving all my regards
This where the stress soon finish but where all the fun
start
I'm ready to move to next level get something out of
life
To the bahamas, sexy mamas, cutting steak with a
knife
I want to feel real good like something you get out a
high
On the balcony posted waving other lames bye
I want to let it all out reaching up to the sky
Late nights buzzed out over vodka and skyy
I want to feel really happy for no reason why
Cause I want to have fun evening suits with a tie
The world is shaped in a ball so I squeeze it for stress
Want to try sky diving with a safety vest
Don't want the usual entrees bring me out the best
I just want to have fun drama to the next

Chorus:

The bills, the stress, the cars, the goals,
The money, the honeys, plans when I get old
I just wanna have fun
The bills, the stress, the cars, the goals,
The money, the honeys, plans when I get old
I just wanna have fun

Verse2:

Just landed feeling branded touchdown in yo city
First class think I even spotted bobby and whitney
Crew carrying all my luggage cause they knew not to
try me
Instore next it's block party nicki minaj's pink friday
And I aint worried about the haters cause I'm
something new
Like a glass of chardonnay compared to mountain dew
Pulled up to the party yes we out in L.A.
Shoutout to the kodak theatre shoutout to marvin gaye

Gucci shades drop down from my head to my nose
Cologne so strong I got the girls dropping like
dominoes
Everybody is a star it's painted all on they toes
Paparazzi camera clicking so guess what "I froze"
Things moving so fast yo this days a blast
I aint at work, with all them jerks, I really this task
Chuck taylors on feet 100's in my stash
Damn here come another limo cedes and it's bad

Chorus (2x's)

The bills, the stress, the cars, the goals,
The money, the honeys, plans when I get old
I just wanna have fun
The bills, the stress, the cars, the goals,
The money, the honeys, plans when I get old
I just wanna have fun
