Verse1:

Everywhere I go these niggaz always be that same
Want me to drop some bars see what words inside my
brain
And everytime they challenge me yall know I have to
battle
My thought process is magic something that make yo
heart rattle
I'm so amazing... I'm on the top of things... um so high...
said I'm so high
I'm higher than a girl bang sit on her head
Niggaz I said I'm higher than somebody dreams in they
head
And um from the world of hard knocks so my haters
they dread
When they see the swag they stand and salute like the
pledge
My armys made all steel close together like a hedge
Yo niggaz all starving while my army stay fed
And um made authentic like these tims on my feet
Said um coming through blasting knowing yall bout to
retreat
Um breezing through fake mc's like wind to a ship
No process complete without me like a computer chip
Didn't believe I had potential till I went through these
stages
Name sitting on cd players listeners all ages
And you can't help but feel me cause I bring the pain
Um stuck in haters mind like a major migraine
Now that being said which one of yall want to battle
I'm built for war atrocious fetch my horse with the
saddle

(4x's) chorus- supercajafrajalist expelidocious my
rapping is atrocious I thought that you should know this

You niggaz talk shit eating garbage while I eat at
popeyes
Got the nerves to talk shit my favorite motto is popeyes
When um breezing through yo town show me salute yo
and holla

Without my green, it make me mean, I'm bout that
good paper dolla
You lyrics never can go hard that's why you niggaz stay
soft
Can't live my life it's such an adventure like tomb
raiders lara croft
And I got to harlem shake all you soft haters off
Every chance I get a hole in one playing yall like a
game of golf
Yall got more wear and tear than a stripper got on her
heels
I'm swimming through all yall barriers because my rap
is so eel
Now I know I said too much yo calm down nigga chill
Lyrics so cold um mr.freeze yo calm down nigga chill
Anyway you flip yo lyrics I'm trashing them out
It's a new day to ship yo theoric but we rationalizing for
mouth
Words appearing magically in my head yo call me a
genius
Rap style fo futuristic I have landed on venus

(4x's) chorus- supercajafrajalist expelidocious my
rapping is atrocious I thought that you should know this
Ending: da rap nemesis um out!
