verse1:

i got my man bag fina head out in the town
wherever i decide to party guranteed to shut it down
im so hot from head to toe i dont need yall comments
now
i leave they jaws dropping wondering that man bag
wow
um like shawty whats the tee?
they wanna be, see me with my man bag, they all start
co-py-ing
im the baddest in the building like a fire alarm
i got my mace to spray any hater throwing a arm
lights camera action, its louie vatoon
got bout 20 more brands just to switch up for fun
if i go grab gucci all these kids better run
they be trying to come for me, but swagger hot like the
sun
now tell the dj its time to spend another track
time a clear a couple scenes, boyz get it better get
back
feeling so good eyes squinted low like a cat
to the bar again to blow out a couple of stacks
work (29x's)
and i do it how i do it i get it how i get it
if im on the dance floor they know i aint kidding
watch the way turn real fast and my man bag too
all you low budget boyz better follow through
and i do it how i do it i get it how i get it
if im on the dance floor they know i aint kidding
watch the way turn real fast and my man bag too
all you low budget boyz better follow through

my man bag, im sporting my man bag
my man bag, im sporting my man bag
