Intro:

(Space intercom)

Hello avias this is your shuttle operator from
spacestation x30

We know that you're getting ready to deport back to
planet earth

But before doing so our leader said he wants you to
deliver a special

To the earthlings (whispering) then AVIAS: departing
Now

(Space shuttle launch)

Verse1:

Okay these niggaz just aint feeling me, much so just
aint getting me

Until I drop a track so wet frightening to their kidneys

I gotta target everybody all rappers getting a piece

Don't wanna do it solo nicki minaj versus keys

I laugh cause all these rappers secretly mimicing my
tracks

I'm clearing em out like maggots verse spray niggas
get back

They might can kick a few lines but uma finish em just
like that

Kicking ass in lyrics just like the game mortal kombat

I got the crowds roaring me on like um mega sports
team

No other way around it your m.p.3 players chose me

Uma do what I do so just let it be what it be

The game without me is like 106 and park without free

Chorus:

Now this a message from my leader he said I was
chosen

Don't lay it on them too hard avias or they be frozen

Mars said yall aint ready (12 x's)

Verse2:

Yall niggaz wackier than a speech from president bush
on a friday

My talent shine like tyras forehead so please stop

trying to hide me
My bars so nice they beautiful spitting them all out full
throttle
Flow so pretty took cd to americas next top model
L-town throw ya hands up cause a better rapper is here
Not always rapping bout the weed, traps, or drinking a
beer
Team mars hop on the band wagon and leave me up to
steer
Uma leave yall faces smiling like a champion so lets
cheer
Now see that's kinda happening but I got a lot of
blockers
a lot of "clone yo rhymes" haters and a lot of stalkers
A lot of talk that talk niggaz but not enough walkers
I know I'm on the road to fame but a lot of clockers
The mars alliance tired of planet earth about to send
war
I told em go ahead what the hell is yall waiting for
They said avias let em know that if we come they gone
fall
So I made this track to deliver this message to all

Chorus: (2x's)

Now this a message from my leader he said I was
chosen
Don't lay it on them too hard avias or they be frozen
Mars said yall aint ready (12 x's)
