Intro:
The nightlife

Verse1:
Tonight is the night for fun um ready to explore
Hop in the black ferarri with the neon on the floor
I keep pushing it pushing it I keep watching my watch
Chrome rims on body nas all in the clutch
I fired up a cigarette my niggaz fired up a dutch
You know the green, that make you mean, like slot
machines and such
Las vegas nevada nightlife is explosive
Gambling all night, prostitutes look erosive
Niggaz giving up they life for a bottle and poker
City lit up everynight like christmas time it's october
Got every drug on the market some you aint heard of
From m.l.a out to L.A. everybody show love
Getting wasted catch yourselves even giving out hugs
And jus like nightlife every city have all of it's thugs

Chorus:
And I don't wanna leave now cause I'm getting to into it
Let a real nigga show a nigga how to do it (yeah yeah
yeah)
The city old in the day but tonight it's so new and
Young and brave full moon sky blue and
Aint looking for love but out comes the cupid
Got the young generation out looking stupid
I aint looking for the trouble just want to view it
I think it's time to take my mind on adventure renew it

Verse2:
I just saw some pretty girls but I want to see mo
Some remind me of naomi, some marilyn monroe
And they keep that hot pink, lipstick with a bow
Uh oh there go somebody motorcycle got towed
Downsouth it's major traffic highways are like a burden
Niggaz in cars texting, sprint, nextels chirping
If I take another drink yall gone catch me like burping
Yeah I might be wasted but the haters stay lurking
So I gotta watch my back like a massage therapist

Better yet like the u.s. n.y.c terrorist
Don't need to let my anger spiral out of control
That old me left but the new got even more bold
It's hot spots in every sin city, so I was told
But it snows in alaska so I know the world cold
I'll just sit back watch the action let the stories unfold
Cause the key to the city um the one that yes holds

Chorus:

And I don't wanna leave now cause I'm getting to into it
Let a real nigga show a nigga how to do it (yeah yeah
yeah)
The city old in the day but tonight it's so new and
Young and brave full moon sky blue and
Aint looking for love but out comes the cupid
Got the young generation out looking stupid
I aint looking for the trouble just want to view it
I think it's time to take my mind on adventure renew it

Darapnemesi avias seay fa show I'm out! lamez
