Verse1:

Someone dial 911 (phone rings) to the hospital
Cause my fever is so high and my pupils so little
Using home... rem-edies is like trying to guess a riddle
Caught off guard this feeling hit me doin something in
the middle
Pulled up to the building in a white red and blue truck
When the doors opened first glances you left me stuck
You so sexy you are beautiful deserve all my bucks
For some reason feeling sick today I feel this my luck
Place that ice pack on my head because you are too hot
Massage my back girl just like you know how to hit the
spot
When I leave I'm gonna place my number on your car in
lot
I can be with you real long be everything you got
You just bandaged me up, so it's time to go
I can't stop thinking bout you I just want you to know
Can I meet you for lunch, can we go see a show
Mrs nurse may-be I should be feeling sick more

Chorus:

Doctor doctor make me feel real good
Doctor doctor operate me
Doctor doctor ooo you look so good
Doctor doctor love yo company
Doctor (10x's)
Mrs nurse ooo you look so good
Mrs nurse love yo company

Verse2:

Youve had other patients but I am one of a kind
Don't you feel all the love don't you see all the signs
Putting that bracelet on me make me feel like you
mines
I aint trying to disrespect you cause that is a crime
You so smart now my blood pressure shot to the roof
Fly you on a helicopter like we in malibu
Sailing overseas bahama breeze water so blue
Said yo last name was smith now that I'm here, who
Doctor doctor you say take this but it's really gross

Doctor you the one I need you're my daily dose
Am I acting out of cha-rac-ter doing the most
Only appetite I have is for you, dinner, and toast
This gaurney is so cozy can you lay by my side
I'll do anything you want open mouth really wide
Yo teeth so clean, like, they was, made, outta fluoride
Yeah you can wear you're uniform but that figure you
can't hide

Chorus:

Doctor doctor make me feel real good
Doctor doctor operate me
Doctor doctor ooo you look so good
Doctor doctor love yo company
Doctor (10x's)
Mrs nurse ooo you look so good
Mrs nurse love yo company

Verse3:

You ran tests on me had a lil chit chat on side
You can feel my need to love you cause I'm watching
yo vibe
Stethoscope on my chest I watched your fingers just
slide
Adrenaline racing so you know that I am alive
Why we gotta play games then get to the operation
Girl my feelings deeper than a cut, scrape or abrasion
Just landed on your turf like a mars invasion
No I normally don't flirt but this a special occassion
So tell me how does it feel to know that you so fly
Doctors turning they heads everytime that you walk by
I am more than one night stands I can be your guy
Doctor doctor hola at me time is moving, sigh
My heart so big that it top the weight of a publix scale
Do you want a piece of heaven? or go home to hell?
Place yo number in that envelope when send the mail
Girl I'm so into like a dry scalp and gel

Chorus: (2x's)

Doctor doctor make me feel real good
Doctor doctor operate me
Doctor doctor ooo you look so good
Doctor doctor love yo company
Doctor (10x's)
Mrs nurse ooo you look so good
Mrs nurse love yo company
